Our Company

VTL TECH CO., LTD.

SOLUTION PROVIDER FOR INDUSTRIES

VTL Tech was founded in 2008, but the core management experience remarkably exceeded over 15 years of qualified activity in hazardous locations and industries. We emphasis on providing cost-effective solutions and services in Electrical Equipment, Process Control Instrumentation, Industrial Automation, Information Technology and Gas Analysis Solutions.

Solution Provider for Industries

Vision

Vietnamese professional product solution and service

Victory for all partners in Co-operation

Value-adding activities are focussed

Mission

To deliver customized, integrated solutions to solve our customers' most critical challenges

To work together and share experience to bring out the right solution for the application

To help others to succeed and contribute to positive working environment

Value

Low cost is committed due to right solution

Latest technical products and professional services

Long-term client and partner relationships are trusted

MTL Instruments

Solution Provider for Industries

MTL scope of supply

MTL signal conditioning

For protection of field instruments and control systems for safe, reliable process communications.

MTL FOUNDATIONTM fieldbus

Market leading technology covering redundant FISCO & next generation fieldbus barrier solution.

MTL network security

Leading edge network security, safeguarding your control system from cyber attacks.

MTL intrinsic safety

Simple, reliable, FSM approved galvanic isolator and zener barrier solutions for the process environment.

MTL surge protection

Surge protection devices for FOUNDATIONTM fieldbus, AC power, data, signal, telecoms and safety.

MTL industrial Ethernet

High speed data control for safe and hazardous areas including multi-port switches, Ethernet-to-Fibre converters and Giga-Bit connectivity.

Controlling, operating and protecting assets in harsh and hazardous areas.

More protection. More technology. Expect more.

MTL intrinsically safe Ethernet

High speed data control for applications requiring access into Zone 1 and Zone 0 hazardous areas including HD IS Ethernet camera and power supplies.

MTL visualisation

Ruggedised process monitoring & control workstations and data acquisition systems for hazardous area environments.

MTL H ART®connectivity

HART® connection systems for delivering valuable data from HART field devices.

MTL industrial wireless

Reliable data from emote locations including wireless modems, I/O and protocol converters.

MTL gas analysis

Portable, fixed and custom built gas analysers, with sample conditioning systems.

MTL process alarm equipment

Alarm & monitoring systems and associated instrumentation for safe & hazardous areas.

MTL Instruments

Solution Provider for Industries

MTL intrinsic safety isolators

MTL SUM5

Smart Universal Marshalling
- Intrinsically safe isolators
- Signal conditioning
- Relay interfaces
- Surge protection
- Loop disconnect

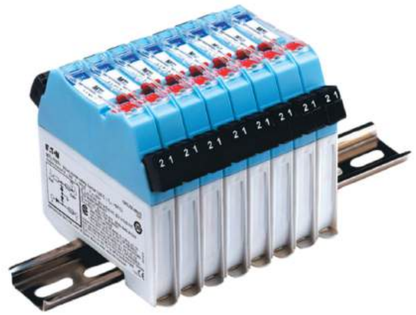

MTL4500 BACKPLANE MOUNTED ISOLATOR

- 3-port isolation as standard
- Highest module/channel packing densities
- Low power dissipation
- Quick install and release mechanism
- Multi-channel I/O modules
- Broken line monitoring
- Compatible with preceding MTL isolator range for pluggable replacements
- Various models assessed for use in Functional Safety applicatons

MTL5500 DIN-RAIL MOUNTED ISOLATOR

MTL7700 DIN-RAIL MOUNTED BARRIER

- Removable terminals
- Bussed power feed to other modules
- Relay and solid state switch modules
- Dual channel variants – 6.3mm per channel
- Proximity detector inputs
- Electronic fusing
- Compatible terminal numbering and safety descriptions

Overvoltage & surge protection devices

MTL SD SURGE PROTECTOR FOR DATA & SIGNAL APPLICATIONS

· Range of ATEX Certified intrinsically safe surge protectors
· Ultra-slim space-saving design; easy installation
· Multistage hybrid protection circuitry – 20kA maximum surge current

MTL TP48 SURGE PROTECTION FOR 2, 3 & 4 WIRE TRANSMITTERS

·Protects 2, 3 and 4 wire transmitters
· Easy and direct mounting — screws into spare conduit entry
· Intrinsically safe and flameproof to CENELEC standards
· Parallel connection avoids introduction of any resistance into loop
· ATEX approved
· 10 year product warranty

ZONEBARRIER ETHERNET,4PPOE RANGE

· 20KA Surge rating
· Shielded RJ45 connectors
· Single stage GDT protection circuit
· 1000/100/10 BaseT allows ethernet applications up to CAT6 · UL497B by CSA
· Compliance to IEC61643-21
· 10 year product warranty

CLASS 2 TESTED SPD, SPCT2

· Class 2 tested SPD
· Suitable for applications without an external lightning protection system
· For TT, TN-C and TN-S supply systems
· Auxiliary contact and busbar available as an accessory
· SPCT 280 and 335 (inserts and combinations) are additional class 3 teste

HIGHLIGHTS

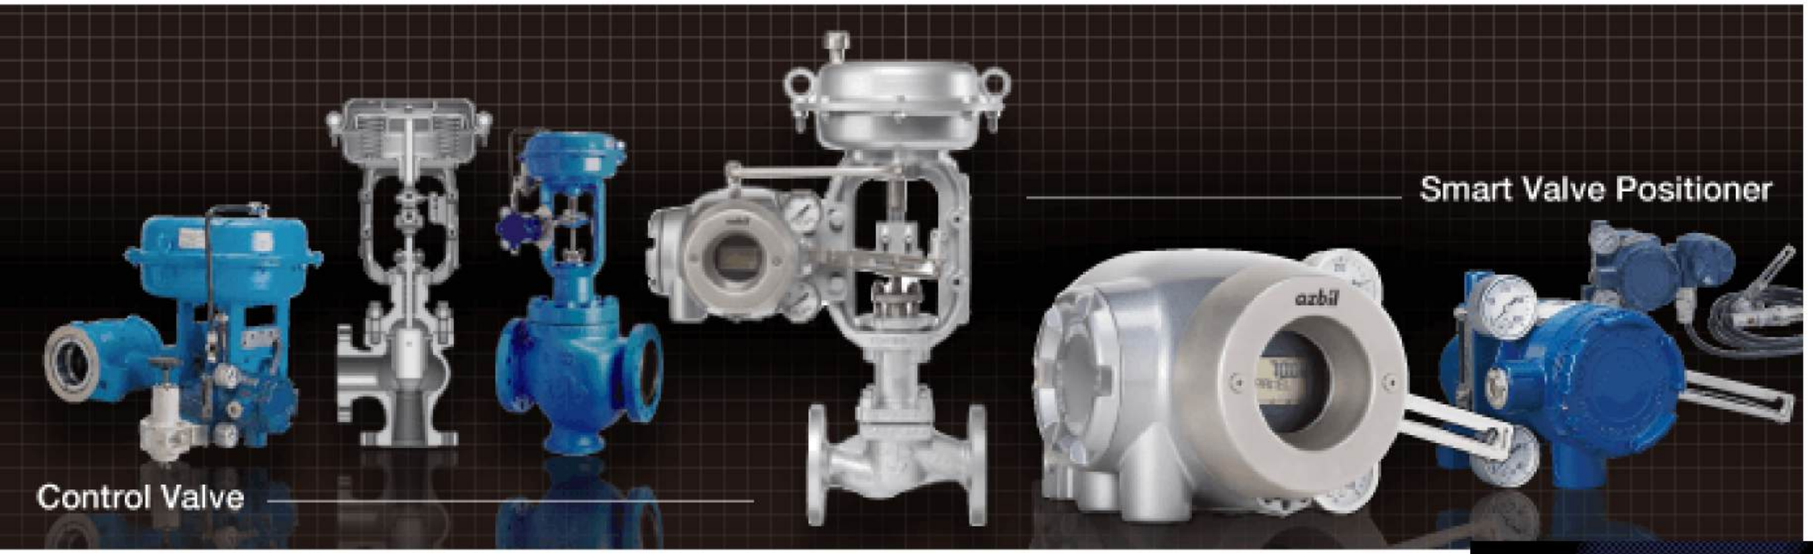

- **Extensive range of solutions**
- **Compactness**
- **Efficiency up to 96.6%**
- **High power availability**
- **Smart battery management**
- **Maximum reliability**
- **Flexibility of use**
- **Graphic touch screen display**

The rapid evolution of IT technologies, augmented focus on environmental matters and complexity of critical applications are demanding more flexible, efficient, secure and interconnected power protection solutions.
The Sentryum 10-40 kVA/kW offers the best combination of power availability, energy efficiency and global performance ensuring installation and running cost savings.
It is the very latest Riello UPS development resulting in a third-generation transformer-free UPS, originally introduced into the market over twenty years ago.
This ultimate solution is rated at output power factor 1 and defined as ON LINE double conversion technology in accordance with VFI-SS-111 classification (as set out in standard IEC EN 62040-3).
The Sentryum series is a transformer-free UPS available in 10-15-20 kVA/kW models with three-phase/single-phase input and single-phase output, and 10-15-20-30-40 kVA/kW models with three-phase input and output.
Sentryum is designed and built using state-of-the-art technology and components. It applies the advanced technologies such as DSP (Digital Signal Processor), dual core microprocessor, three-level inverter circuits and resonant control to provide maximum protection to the critical loads with no impact on downstream systems, whilst maintaining optimised energy savings. With a unique control system, it makes it possible to

To Whom It May Concern,

RE: Appointment of SONEPAR SINGAPORE PTE LTD & Their Local Partner VTL TECH CO., LTD.

LYTECH Technologies Ltd with it's head office in UK, is a manufacturer of a wide and complete range of Lightning Protection & Earthing products type tested to the latest IEC standards. With our team having more than 100 years of combined experience in the business, we support our customers and distributors worldwide not only with the best possible products and engineering solutions but also design & installation proposals.

We are pleased to appoint Sonepar Singapore Pte. Ltd, a company incorporated and existed under the law of Singapore with registered address at 101 Eunos Avenue 3, #07-02 Singapore 409835 as an authorized distributor for the sales of LYTECH Technologies Pte Ltd's range of Lightning Protection, Earthing & cable accessories products in Vietnam. Sonepar Singapore Pte Ltd has selected VTL TECH CO., LTD. in Vietnam as their sole sales & marketing partner for LYTECH's range of products in Vietnam.

We assured our customers the quality of the product supplied and provide our best possible technical support to Sonepar Singapore Pte Ltd and VTL TECH CO.,LTD. to service the Vietnam market.

Please feel free to contact us if your need further clarifications. Thank you.
